Subject Index

Volume 2

A

Academic medical centers, care coordination in, 75
Accreditation, performance improvement and case management linked to, 181
Acute care, complementary nursing as model for, 183, 257
Acute myocardial infarction, thrombolytic therapy in patients experiencing, case map for, 229
Adults, case management guideline for major depression in, 246
Authoring, of journal articles, 131

B

Back surgery, care map for, 162

C

Cancer, oncology case management and, 44
Care coordination, 269
  in academic medical center, 75
  enhancing, 19
Care paths, cost savings and, 267
Case loads, size of, 95
Case management interventions, measurement of, 132
Case maps
  for back surgery, 162
  for thrombolytic therapy, in patients experiencing acute myocardial infarction, 229
  for transurethral resection of prostate, 115
Clinical information, needs for, 168
Clinical outcomes, oncology case management and, 44
Clinical pathways
  nurse and physician perspectives on, 127
  in perioperative settings, 97
Collaborative practice, implementation through interdisciplinary rounds on general surgery service, 122
Complementary nursing, as acute care case management model, 183, 257
Computerized patient records, 240
Computerized variance data analysis, 51
Congestive heart failure, outcomes in, improvement by case management, 68
Cost containment
  care paths and, 267
  information needs for, 168
Critical paths
  for major depression, 23
  variance analysis and, scanner technology for managing, 141

D

Decision making
  ethical, 196
  type theory and, 109
Delivery, fetal maternal case management and, 55
Depression, major
  in adults and older adults, case management guideline for, 246
  critical pathway and patient and family teaching protocol for, 23

E

Ethical decision making, 196
Ethics, cost savings and care paths and, 267

F

Family teaching protocol, for major depression, 23
Fetal maternal case management, 55
Financial information, needs for, 168
Financial outcomes, oncology case management and, 44

H

Heart failure, congestive, outcomes in, improvement by case management, 68
Hospitals
  academic, care coordination in, 75
  length of stay in, Fast Track TURP Case Map and, 115
  self-insured, case management for, 219

I

Information-based practice, need for, 192
Information needs, 168
Insurance, case management for self-insured hospitals and, 219
Integrated delivery systems, case manager's role in, 239
Interdisciplinary rounds, on general surgery service, implementation of collaborative practice through, 122

Interdisciplinary teams, enhancing quality and access of, 148

J

Journal articles, authoring, 131

L

Length of stay, Fast Track TURP Case Map and, 115

M

Marketing, of case management, to physicians, 83
Measurement, of case management interventions, 132
Medical records, computerized, 240
Mental health
  case management guideline for major depression in adults and older adults and, 246
  critical pathway and patient and family teaching protocol for major depression and, 23
Myocardial infarction, thrombolytic therapy in patients experiencing, case map for, 229

N

Negotiation skills, 107, 177
Nurses, perspectives on clinical pathways, 127

O

Obstetric patients, fetal maternal case management and, 55
Older adults, case management guideline for major depression in, 246
Oncology case management, 44
Outcomes
  clinical and financial, oncology case management and, 44
  in congestive heart failure, improvement by case management, 68
  Fast Track TURP Case Map and, 115
Outcomes system implementation, for subacute care, 33

P

Patient and family teaching protocol, for major depression, 23
Patient care, information needs for, 168
Patient outcome, Fast Track TURP Case Map and, 115
Patient records, computerized, 240
Performance improvement, accreditation and case management linked to, 181
Perioperative settings, clinical pathways in, 97
Physicians
  marketing case management to, 83
  perspectives on clinical pathways, 127
  resistance to case management and, 43
Pregnancy, fetal maternal case management and, 55
Presentations, professional, 16
Pressure ulcers, consistency in prevention and treatment of, through wound care team, 203
Problem solving
  with resistance to case management, 43
  type theory and, 109
Prostate, transurethral resection of, Fast Track TURP Case Map for, 115

Q

Quality improvement, enhancing interdisciplinary team quality and access and, 148
Quality problem solving, type theory and, 109

R

Records, computerized, 240
Resistance, to case management, 43

S

Scanner technology, for managing critical path variance analysis, 141
Self-insured hospitals, case management for, 219
Stress resilience, 226
Subacute care, outcomes system implementation for, 33
Surgery, to back, care map for, 162

T

Teams
  interdisciplinary, enhancing quality and access of, 148
  wound care, consistency in prevention and treatment of pressure ulcers and, 203
Thrombolytic therapy, in patients experiencing acute myocardial infarction, case map for, 229
Transurethral resection of prostate, Fast Track TURP Case Map for, 115

Type theory, quality problem solving and decision making and, 109

V

Variance analysis
computerized, 51

critical path, scanner technology for managing, 141

W

Wound care
consistency in prevention and treatment of pressure ulcers through wound care team, 203
program for, 3
Writing, of journal articles, 131
